

SNBP School & Jr. College, Morwadi

Academic Year (20-21)

ENRICHMENT ACTIVITIES

Class: X

An initiative for continuous learning.....

Integrated Project

Class: X

Waste is a matter to be considered in haste. Don't you think so?. Do we have any idea about how much waste we are generating one day? If we multiply it with the number of days in a year and then with the number of population, we realize the threatening truth. Let us understand it deeply to find out possible solutions.

Objectives:

1. To inculcate inquisitiveness among children.
2. To generate research ability to analyse on a topic and come to a conclusion.
3. To improve presentation skills verbal as well as non – verbal.
4. To channelize the communicative potential among children.

Languages:

Waste generation and Management.

Essay writing on waste management, collecting newspapers article and pictures related to it.

Science: Prepare innovative working models to generate energy from waste, prepare beautiful articles or model from waste material available at home.

Maths: Closely observe the amount of waste produced in your house for 10 days, mark your observation. Take photographs of it as a proof for your study. Based on your study represent it in a graph.

History : Earlier/Historic methods of waste management.

Geography : Prepare a pie chart on world's top five countries generating E-waste.

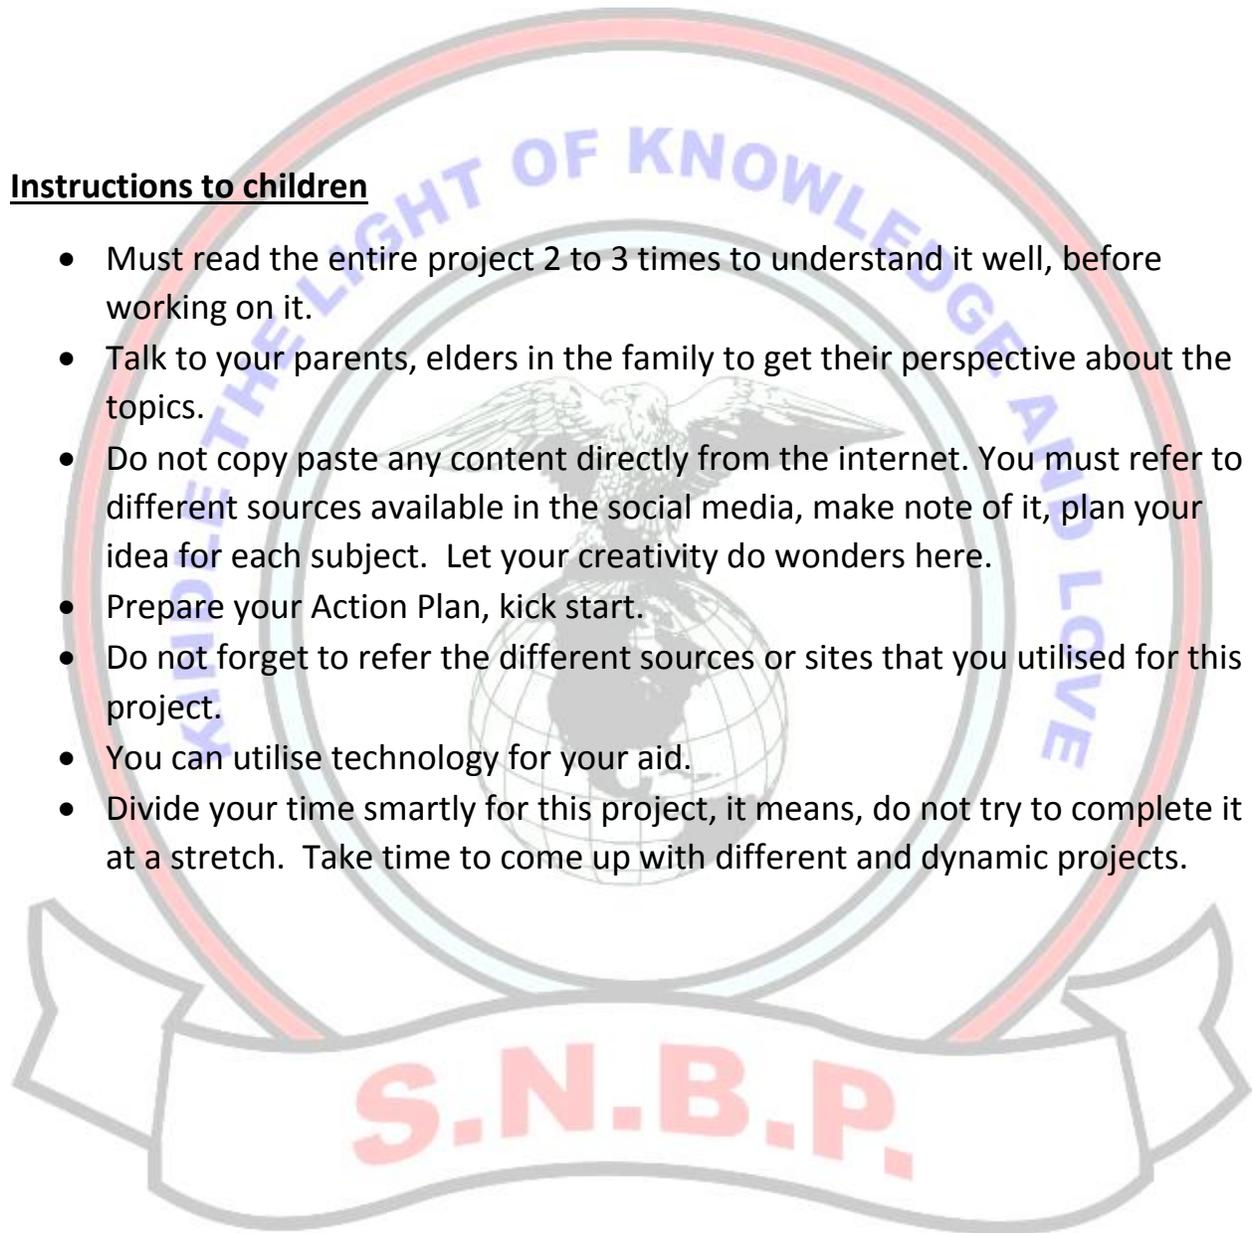

Physical Education: What kind of waste is generated while conducting sports events? What is done with the generated waste? Can we re use it? How?

Defence Studies: The role of NGO's in waste management initiatives.

Water security: waste disposal in the rivers is a major reason for floods. Do you agree.

Instructions to children

- Must read the entire project 2 to 3 times to understand it well, before working on it.
- Talk to your parents, elders in the family to get their perspective about the topics.
- Do not copy paste any content directly from the internet. You must refer to different sources available in the social media, make note of it, plan your idea for each subject. Let your creativity do wonders here.
- Prepare your Action Plan, kick start.
- Do not forget to refer the different sources or sites that you utilised for this project.
- You can utilise technology for your aid.
- Divide your time smartly for this project, it means, do not try to complete it at a stretch. Take time to come up with different and dynamic projects.

1.Diary Writing:

Make note of the minor incidents happened in a day. You can utilize a small pocket diary or notebook to mention it. At night, before bedtime narrate all these incidents to your diary in written form.

Write the Date

Begin with *Dear Diary....*

It can be a lifelong activity.

2. Learn a new game

3. Read books.

Few authors are recommended here

Sudha Murthy, Enid Blyton, Ruskin Bond, R. K. Narayan, Aravind Adiga.

You can also try biographies and auto biographies,

Also try books like Rich dad Poor Dad by Robert T. Kiyosaki

Whichever book it may, make sure to write a brief summary of it after reading, it will help in the longrun.

Let's enjoy a happy and fruitful summer vacation

Good Luck
